

Growing in God's Field is back by popular demand! **God's Story...Going Viral** is our theme for the event October 8-9 in Helena.

We cannot always predict how and where seeds will grow and thrive. I once served a church next to a pizza parlor. Every morning I was tempted with the smell of pizza baking. Every evening I was disgusted by the trash that was thrown on church property. And then one day I discovered that where the trash had been tossed, there was a tomato plant growing. Somewhere, somehow, out of what was rejected, new life was bursting forth!

God can do amazing things!

Come join us at **Growing in God's Field: God's Story...Going Viral!** There is something for everybody.

I look forward to seeing you there.
